- The Rental Properties
- The Equities
- The innovative assets

### THE BIG LIABILITIES

- The House
- "The Education"
- The Car
- The Wedding

# The Gold Actions

## THE 2 GOLDEN HOURS

These two hours, guys, are the key. If you make them a habit, they will transform your financial situation forever. During the two golden hours, you must focus on things that will increase your wealth. The ideal scenario for using your two golden hours is creating scalable products that solve popular and painful problems in a niche with big marginal profits. The two golden hours are the daily time that you get yourself into the difficult gold path we learn in the third gold root, walking towards your destination, the gold tree. Every day, at least on weekdays, wake up at 5:00 AM and start working on the financial priorities you set for the day the night before.

## THE VALUABLE JOB

A valuable job is a job that not only provides you with a paycheck but, more importantly, teaches you the skills needed to create a solution that will be in demand in a growing market for the next decades. So, what should you study to find such a job?

**Step 1:** Study markets. Which markets are in demand?

**Step 2:** Study the painful and popular problems that these in-demand markets have.

**Step 3:** Find the best companies that effectively solve these problems.
